INTERIOR	EXTERIOR	TRAFFIC	SHOWER	BACKSPLASH	FIREPLACE SURROUND
Wall and Floor	Non Freeze/Thaw, Wall and Floor	Residential	Wall only; Including Steam	Yes	Yes
POOL	COUNTERTOP				
No	Yes				

Due to the inherent characteristics of natural stone, there may be variations in color, movement, and texture from lot to lot. For detailed installation guidelines, visit akdo.com.

Due to natural calibration variations between honed, tumbled, and polished finishes, we recommend specifying the finish type when creating a checkerboard pattern to ensure a consistent look throughout the installation. Honed and polished finishes can be used together, but tumbled finishes should be used on their own.

The performance of surface covering products often depends on installation, environmental, and usage factors unique to each project. AKDO is not responsible for any effects that may be caused to products due to installation, wear from use, or exposure to environmental factors including but not limited to: hard water, chemicals, heat, flame, smoke, dirt or other substances. It is your responsibility to assess the project to determine if the product you are selecting is appropriate considering the unique characteristics of your installation, and to apply appropriate, high quality sealers when necessary. Please consult your installer for more information.
