TECHNICAL DATA

FEATURES & STANDARD	SPECIFICATION
DCOF – ANSI A.137.1	<p>Due to the natural characteristics and variation in natural stone, slip resistance will vary. Such factors are dependent on lots, finish and the topical sealant applied. There is currently no standard industry test with the ability to measure the exact slip resistance.</p> <p>To reduce the slipperiness of stone surfaces, AKDO suggests selecting a non-polished finish such as honed, sandblasted, or textured stone, or choosing a mosaic, as the grout joints in the stone result in an increase of friction.</p>

Due to the inherent characteristics of natural stone, there may be variations in color, movement, and texture from lot to lot. For detailed installation guidelines, visit akdo.com.

YOUNG HUH

INTERIOR DESIGN

Young Huh is the principal and founder of Young Huh Interior Design, a full-service design firm, located in New York City, specializing in residential and commercial interiors. Resetting the design narrative for each product, YHID's work is about finding harmony and dynamism through the application of classic and modern design principles. Thoughtful architectural details provide the groundwork for warm and welcoming interiors, each animated by sophisticated surface treatments, a singular play of pattern and color, and a touch of wanderlust.
